EDUCATION

University of Bern

Bern, Switzerland

Ph.D. Biostatistics

2019 - 2022 (Expected)

Stanford University M.S. Statistics; GPA: 3.7/4.0 Stanford, California 2012 - 2014

Durham, North Carolina

**Duke University** B.S. Statistics, Graduation with High Distinction; GPA: 3.7/4.0

2007 - 2011

Experience

## Institute of Social and Preventive Medicine, University of Bern

Bern, Switzerland 2019 - Present

Ph.D. Student in Biostatistics

- o Real-world effectiveness: Developed models that combine individual patient data from randomized controlled trials and non-randomized studies when aiming to predict outcomes for a set of treatments.
- o Variable selection and shrinkage: Compared variable selection and shrinkage methods for estimating patient-specific treatment effects in individual patient data meta-analysis.

**LLX Solutions** Boston, MA Biostatistician2018 - 2019

- o Experimental Design: Drafted statistical analysis plans which address study designs and methodologies on how to evaluate efficacy and safety of the new drug in development.
- Data Manipulation: Extensively used SQL to transform raw clinical data into datasets that meet FDA standards.

## Center for Evidence Synthesis in Health, Brown University

Providence, RI

Research Associate

2015 - 2018

- o Network meta-analysis: Developed an R package for Bayesian network meta-analysis which allows simulataneous comparison of multiple treatments.
- o N-of-1 clinical trial: Developed a statistical tool to analyze single patient trials and applied it to determine the effectiveness of carbohydrate diet for patients with inflammatory bowel disease.

In4mation Insights

Boston, MA

Quantitative Analyst

2015 Summer

o Performance metric: Developed a ranking system for Altria's e-vapor products by defining behavior scores using area and slope based on 6 week share of usage occasions and by defining intent scores using factor analysis.
